

CHAT, VOICE, AND VIDEO COLLABORATION

by ECS Clinical

At ECS Clinical we believe that patient care is at its best when medical teams collaborate. Our secure cloud based technology allows for cross-functional providers to collaborate in real-time from across the hall or across the world.

Improve Revenue

Hospitals waste \$12 billion or 2% of revenue annually due to poor provider communication. ¹

Reduce Malpractice Claims

30% of all medical malpractice claims involve poor provider communication. ²

Improve Patient Outcomes

Effective provider communication can reduce relative patient length of stay by approximately 14%. ³

FEATURES & BENEFITS

• Chat, Voice, Video & Screen Sharing

• HIPAA compliant

• End-to-end encryption

• Cloud based (Powered by AWS)

• Zero footprint (Nothing to install)

• Flexible contact searching (See who's online)

• Validated contact information for all users

• Group collaboration (No contact meetings)

• Smart phone compatible (Communicate from anywhere)
